Figure 1 illustrates various map features and their symbols. The features are categorized into linear features (roads, railroads, pipes/power lines, physical features, nonvisible boundaries) and area features (streams/shorelines, intermittent streams, rivers/lakes, glaciers). Each feature is represented by a specific symbol and labeled accordingly.

¹ This map shows tribal census tract boundaries and numbers. A tribal census tract is a type of census tract defined within a federally recognized American Indian reservation or off-reservation trust land for the purpose of providing data based on an American Indian hierarchy rather than by state and county.
